EXPERIENCE

BudgetAppStudio - Coimbatore

January 2026 -Present

During my internship at Budget App Studio, I worked in business development where I assisted in client communication, supported customer engagement activities, helped in presenting product information, and contributed to business growth initiatives.

Azhizen Solutions Pvt Ltd., - Namakkal

Feb2025 - July2025

During my internship at Azhizen Solutions, I worked on web development using React.js, HTML, CSS, and JavaScript, where I developed responsive web pages, supported frontend development tasks, and assisted junior interns in learning React concepts.

Object Automation Systems Solutions - Chennai

July2024 - August2024

During my internship at Object Automation System Solutions Pvt Ltd, I worked on the topic "AI in Cloud", where I learned Python and explored how AI applications can be developed and deployed using Microsoft Azure.

PROJECTS

MERN Stack E-Commerce Web Application

Built a MERN stack e-commerce application with JWT authentication, role-based access, cart, and full order management system including admin dashboard.

Fake Review Detection System

Developed a fake review detection system using Python and Flask, implementing a machine learning algorithm to identify misleading reviews.

Personal Portfolio Website

Built a personal portfolio website using React.js and Tailwind CSS to showcase projects, skills, and development experience.
